

2025 ANNUAL
CONFERENCE
PESTOLA
PEDIATRIC ENDOCRINE SOCIETY
OF TEXAS, OKLAHOMA, LOUISIANA, AND ARKANSAS
APRIL 4-6, 2025 | Irving-Las Colinas, TX

EXHIBITOR & SPONSORSHIP PROSPECTUS

An in-person event presented by PESTOLA in collaboration with Cook Children's for medical providers caring for pediatric patients with endocrine conditions.

Dear Colleagues,

The Pediatric Endocrine Society of Texas, Oklahoma, Louisiana, and Arkansas (PESTOLA) in joint collaboration with Cook Children's Medical Center, invites you to sponsor and/or exhibit at the PESTOLA 2025 Conference. This in-person event will be held on April 4-6, 2025 in Irving-Las Colinas, TX.

PESTOLA 2025 will continue to provide a broad, multi-disciplinary platform in pediatric endocrinology and a unique opportunity to profile and promote your company to a wide range of clinicians and other key stakeholders in the field. In 2024, the in-person conference in San Antonio brought together more than 350 participants. PESTOLA has established itself as the leading regional conference on pediatric endocrine care with a unique approach to its scientific program underpinned by its focus on patient care and treatment. With a truly national impact, the conference has earned its definite place and role in the pediatric endocrine landscape.

The clinical sessions of PESTOLA are designed to complement other national conferences focusing on research, such as the PES and ENDO. Building on these past successes, PESTOLA expects continued high attendance in Irving-Las Colinas in 2025. The meeting will be completely live and in person. DFW has multiple graduate medical education programs, medical schools, and nursing schools. We will reach out to these programs to introduce those groups to the field of pediatric endocrinology.

We invite you to review this sponsorship proposal and explore the wide range of sponsorship and exhibition opportunities. Your participation will enable you to reach an audience of key opinion leaders and stakeholders and contribute to advancing clinical and research knowledge in the field and promoting better access to diagnosis and treatment for pediatric endocrine patients.

Should you need additional information, please do not hesitate to contact us at: pestola@pestola.org.

We look forward to seeing you in Las Colinas!

All the best,
PESTOLA

ABOUT PESTOLA

Pediatric Endocrine Society of Texas, Oklahoma, Louisiana, and Arkansas (PESTOLA) is a 501 (c)(3) nonprofit organization. PESTOLA is dedicated to researching and treating children with endocrine disorders; reproductive, bone, thyroid, diabetes, obesity, growth, pituitary, and adrenal.

PESTOLA works to promote the continuing education of its members and to increase awareness of endocrine and metabolic diseases of young people from conception to adolescence, as well as to provide resources, education, and advocacy within the PESTOLA Membership Region and across the country.

OUR MISSION

- **Knowledge:** Improving care through teaching, discovery and dissemination
- **Collaboration and Leadership:** Expanding impact and value of the Society through strategic partnerships.
- **Member Value:** Providing opportunities for professional growth and practice development.
- **Advocacy:** Advocating for the needs of PESTOLA members, patients and families.
- **Society Strength:** Optimizing PESTOLA strength through membership and leadership

THE ANNUAL MEETING

PESTOLA annual meeting will be held April 4-6, 2025 at the Omni Hotel in Irving-Las Colinas, Texas.

The meeting will focus on diabetes and technology, bone and parathyroid, thyroid, lipids and CV health, nutrition and obesity, pituitary, adrenal, and gonad.

Attendees will:

- Discuss the latest scientific and clinical discoveries in endocrinology, diabetes, and metabolism.
- Apply newfound knowledge to diagnosing and managing patients with disorders of endocrinology, diabetes, or metabolism for improved patient outcomes.
- Assess the potential applications of emerging scientific advances that affect the practice of endocrinology.
- Explain to your patients the latest clinical treatment options in endocrine health.
- Describe the multidisciplinary approach to treatment and management of pediatric endocrine disorders.

WHO WILL ATTEND:

Physicians, Trainees, and Nurses with specialties in Academic/Research, Bariatrics, Chronic Disease Prevention, Clinical Research, Community Health, Diabetes, Diabetes Education, Endocrinology, Ethics, General Practice, Genetics, Nutrition and Dietetics, Obesity, Pediatrics and Research

We encourage industry supporters to attend and engage with us in person, online, in product theatres, and other informal opportunities.
